

# SANDFORM DUTCHING

## MAKE REAL MONEY WHEREVER YOU ARE IN THE WORLD

Hello and welcome to the Sandform Pod Cast and e-book.

We are delighted to introduce you to Sandform Dutching. Over the last 20 years the team at Sandform has been involved within the financial and racing industries. Dutching plays a major part of everyday life in both the financial and racing markets.

The fact that you have found us gives us an indication of the type of person you are. Are you searching for a release from the rat race? Are you tired of a mundane job with little or no prospects of improving the quality of your life? Working all hours to make ends meet, never enough to put away for a 'rainy day'?

Sandform 'Dutching' affords you with the opportunity to relieve the burden of life's 'trials and tribulations' by providing you with a tax free second income, and the beauty of it is you don't have to leave the comfort of your own home to do it!

It's a fact of life that money can't buy you happiness, but when money is short the pressure's on. Not having to worry about money takes the pressure off and life and situations seem easier to deal with. We think most people would agree that you will never become rich working for someone else.

Sandform Dutching offers you the opportunity to create your own influx of money, whether it is large or small, to provide you with the lifestyle you desire.

We are certain that we will not be the first service that you have shown an interest in within the racing industry, in fact we would be confident enough to say that many of you have been 'bitten' and are now shy of such services.

95% of many such service and sites are opportunists with little or no knowledge of the racing industry. These sites can disappear as quickly as they have appeared taking a few uneducated, unsuspecting and trustworthy clients and their hard-earned money with them. Time after time we've seen it happen. This is where we can truly claim to be different. Sandform have been around for many years, we are well established and renowned within the racing industry.

Whether or not you decide to join our service there are some pointers we would like to strongly urge you to consider which will hopefully alert you to

potential scams or cons.

- Never attend free seminars offering a system or software designed to pick winners. They are often held at weekends, up and down the country and will inevitably be 'high pressure' selling. Some companies are charging in excess of £4000 and quite frankly, they are not worth the paper they are written on.
- Be aware of services that claim a high strike rate and huge profits. These can often be fabricated and rarely show you the long losing runs that there will undoubtedly have been, luring clients into a false sense of security.
- If a website looks like it's been thrown together and is designed with free software, it probably has. The chances are that it's an opportunist looking to make a quick buck, who has no knowledge of the industry.
- 'Free-tip' websites sound too good to be true and often, quite frankly, they are. These sites are what we term in the industry as 'email address harvesters'. Your email address and confidential details are compiled onto a database and sold on to predators.
- The Racing Media. There are many tipsters within the racing media. Some are high-profile who have been in the industry a long time, who claim high profits and percentages and offer their 'service' for an annual fee. Don't pay substantial amounts of money for annual subscriptions; opt for a service that offers a monthly or quarterly subscription.

### **Why is Sandform Dutching a genuine opportunity?**

Sandform and Sandform Dutching is a small family run business which provides honest and reliable information to assist their Members to achieve a second income from horse racing. We freely admit that our mathematical betting is not for everyone. If you are seeking a 'get rich quick scheme' then we are not for you.

### **Sandform are pioneers of the internet 'Dutching' service.**

The mathematical system we use to calculate our 'dutches' is unique and dates back to 1902. It was devised by a gentleman named Dutchy Schwarz, who was at the time, Al Capone's book-keeper. The mathematics is combined with our own speed ratings and form analysis, which result in our given 'dutching' selections. The mathematical system devised by Dutchy Schwarz has been manipulated over the years and now forms the 'dutching' calculator used by modern day book-makers.

Like most secrets the process of selecting 'dutches' is not complicated to us,

but can be complicated to the 'every day punter'. We would like to say at this point that picking winners is very hard work; to pick them constantly is almost impossible. So how do we do it? We may pick 3 or 4 horses in the same race, it's obvious when you think about it, and you have 2 or 3 more chances of winning than you would have if you had placed a single bet. 'Upping the anti' is a much more comfortable way of betting.

There is no expensive computer/software programmes to purchase, as we do all the hard work for you, we even provide a free 'dutching' calculator to assist with the mathematics. This is a very simple calculator which is easy to both use and understand. Sandform 'Dutching' offers a very simple way of making an average profit of £150-£200 a day from one or two 'dutches' . You are probably saying to yourself 'I've heard all this before, same old sales pitch!'. But this is not a sales pitch. It is easily achievable and it's the truth!

The one question we are often asked is 'Do you back the selections yourself?' The answer is 'yes we do'. We place our bets through 'Betfair.com' an established internet racing exchange. You're probably wondering why then, if our 'Dutching' is so profitable, do we need to work. Why have the stress and headache that goes with the day to day running of a business?

The answer to that is very simple. We have discovered in our speed rating and form analysis statistics over the last 5 years, that we occupy a niche we feel has not been exploited and we fully intend to occupy this area! We are also independent which allows us to view our 'dutching' selections without being prejudiced by being part of a racing conglomerate.

The Sandform team also benefits from spending all their effort within the racing industry - we are constantly re-evaluating and improving our accuracy of information.

### **Why should you trust Sandform 'Dutching?'**

We stand and fall by the integrity of our 'Dutching' service. If we don't deliver winning 'dutches' we will fail, so we spend over 90% of our resources on the 'Dutching' service and associated services rather than web-authoring. Hence, we do not have a flash enabled, graphic heavy site which looks and feels fabulous but which is a complete sham.

Neither would we pretend to have all the answers, being a successful horse player means you have to be willing to learn everyday, however, because the team spends all of its time in the All-Weather arena we believe we provide the best insight into the code, on-line and off-line. The approach we take is to make sure we provide you with the information pertinent to making a solid gambling decision.

We aim to provide you with a service on which you can rely. However, to do that we have to be very selective - no gambler has ever made his fortune by backing a horse in every race, at every race meeting, every day!

Our philosophy is also radically different to all other services on the internet. We are highly selective, always cautious and will never produce a 'dutch' for a race meeting because we feel 'we have to'. By adopting this approach we hope to gain a loyal following of like minded racing investors.

We are available to answer any queries you may have during office hours, Monday - Friday, 10am-4pm, on 0844-88-49-911. Alternatively you can email us at [dutching@sandform.com](mailto:dutching@sandform.com), you will receive a prompt reply. We always reply to telephone or email enquiries and pride ourselves on our high standard of customer care.

### **The 'Dutching' Selection Process**

I am going to explain to you how we do a 'dutch'. An example of one of our winning 'dutches' is as follows:

We are looking at the Kempton meeting on 13<sup>th</sup> October 2007. The race in question was the 7-20pm, Claiming Stakes, Class 6 for (3 yro+). This was a 1m2f race, standard going. We chose 3 runners in this race to 'dutch', they are as follows:

Tufton at 14.5  
Compton Express at 70  
Langford at 15

What we will do is enter the 14.5, 70 and 15 into the 'dutching' calculator which will equally divide the £100 stake over the 3 selections, giving an overall equal percentage to gain an equal profit on any of the 3 selections winning.

So, we enter the 14.5 into the calculator, then the 70, then the 15. This then apportions the £100 stake equally in the following amounts so that if any one of the selections win, the profit remains the same.

Tufton at 14.5 = £46 stake  
Compton Express at 70 = £9.53 stake  
Langford at 15 = £44.47 stake, the total stake = £100

Now we have placed our 'dutch' with Betfair, as long as one of the above 3 selections wins we gain a profit of £567.03 on the race. In this instance, Langford won the race returning a total profit of £567.03.

We also provide Members with a Place Bet which is very profitable. The Place

Bet is advised at £100 stake. This is a bet which has to be placed on the exchanges, not with an everyday- book-maker, as long as the horse wins or is placed the bet is settled. Our Place Bet on the above instance was Langford at 4.2 and the Place Bet returned a profit of £220.00.

It may appear quite simple and really it is, except, which horses do you select to 'dutch' in a given race? This is where Sandform Dutching has the monopoly. We use our invaluable experience and expertise to pinpoint our given selections.

We use our speed ratings and form analysis data to reduce the risk of the stake in a mathematical pattern. We have been specialists in the racing industry for many years. You will receive invaluable information on how to maximise your return from a 'dutching' bet and thereby safe-guarding your investment. We have 'stood the test of time' in this industry and are renowned for our big price winners!

Finally, the cost for the 'dutching' service is £119 per month. The equivalent of £3.91 per day. It is a minimal amount for a significant return. If you decide to pass up this offer, just remember to add Sandform Dutching to your 'favourites' list on your pc, so that you know where we are when you are ready to join our profitable service.

When you are tired of searching the internet, of trying other services, of losing your hard earned money and still searching relentlessly for that second income; we are giving you a unique opportunity to share in our success and the success of our clients. We would welcome you to become a valid member.

You can join our 'Dutching' service today with any credit/debit card via Paypal by clicking on the 'join' button at Sandform.com. Once your payment has been received you will have immediate access to the site.

We would like to take this opportunity to thank you for listening to our pod cast and reading our e-book. Whether you decide to join us today or at some point in the future, we wish you every success and look forward to hearing how we have helped you to earn a very welcome, tax free, second income.
